

WB-2P-LR2

WB-2P-LR2 – a high-performance wireless user station designed for up-to-date high speed service provision via Wi-Fi technology.

Wireless connection

WB-2P-LR2 is developed for connection to Wi-Fi access network which might be constructed using base stations within long distances.

Performance

To ensure a stable and uninterrupted operation, the device is equipped with high-performance processors providing high routing rates and ensuring the effective operation of FBWA (Fixed Broadband Wireless Access) technology.
