WEP-12ac

Solution for enterprises

WEP-12ac is designed to provide users with access to a high-speed and safe network that combines numerous features and services required by corporate clients.

WEP-12ac is a universal solution that may be used for organization of wireless networks in highly crowded areas and high traffic environments (offices, state institutions, conference halls, laboratories, hotels, etc.).

Wireless connection

The WEP-12ac provides 1300 Mbps (5GHz) + 450 Mbps (2.4 GHz) data rate due to the support for IEEE 802.11n/ac standards.

Performance

High-performance processors are used in the devices in order to provide reliability and high data processing rates.

Power supply

The support for PoE+ technology allows to install the device virtually anywhere regardless of the power supply location.
