

List of changes

Document version	Issue date	Revisions
Version 1.8	09.02.2022	Synchronization with firmware version 3.34.1
Version 1.7	14.12.2021	Synchronization with firmware version 3.34.0 Changes in sections: PLC8 board ONT configuration profile management. SHAPING profile – added 'storm-control'
Version 1.6	05.07.2021	Changes in sections: Device operation debugging ONT configuration management PLC8 board configuration templates ('TEMPLATE') PLC8 modules GPON configuration settings
Version 1.5	13.04.2020	Synchronization with firmware version 3.30.0
Version 1.4	08.10.2019	Synchronization with firmware version 3.26.3
Version 1.3	22.12.2017	Chapters added: 11.16 firmware ont auto update edit 19.31 show interface ont <PONSERIAL> services utilization 53.5 ip source-guard ignore-vlan Removed sections: 25.34 show slot <SLOT> gpon olt igmp
Version 1.2	01.02.2017	Changes in sections: 8.2 show users config: show users renamed in show users config 11.11 copy: license file upload option has been added 11.26 show running-config: added parameter "ipv6" 14.6 aaa authentication login: added parameter radius 15.6 slot <SLOT> access-list filter: added parameters ipv6-da and ipv6-sa, ipv4-protocol renamed in ip-protocol 17.11 shaper: changed <LIMIT> parameter value 17.12 cnterset: added port type support: plc-front-port, plc-pon-port, plc-slot-port. 19.15 service custom: removed unused value for parameters <VLAN> and <COS> 25.67 show interface gpon-port <GPON-PORT> igmp groups: show slot <SLOT> gpon olt igmp <port> renamed in interface gpon-port <GPON-PORT> igmp groups 38.11 show interface gpon-port <GPON-PORT> dhcp sessions: show ip dhcp snooping table renamed in show interface gpon-port <GPON-PORT> dhcp sessions 38.6 overwrite-option82: added parameter <TEXT FORMAT> 40.6 format: added parameters PONSERIAL and DESCR to form PPPoE IA option 82 45.7 igmp query last-member: igmp query interval last-member renamed in igmp query last-member 45.8 igmp query response: igmp query interval response renamed in igmp query response Chapters added: 8.3 show users who

9.3 show alarm active

11.13 cli max-sessions

11.14 cli display

11.15 show cli

11.21 license set

11.31 show license

14.14-14.17 Added commands to configure radius-server: radius-server timeout, radius-server key, radius-server encrypted key, radius-server host

1.7 show slot <SLOT> cntreset

19.16 service selective-tunnel

19.30 show interface ont <PONSERIAL> connected

22.4 ip snmp agent engine id generate

22.6 ip snmp agent transport

25.24 ip igmp snooping static

25.34 show slot <SLOT> gpon olt igmp

25.35 ipv6 mld snooping enable

25.36 ipv6 igmp snooping pp4x enable

25.37 ipv6 mld snooping slot enable

25.38 ipv6 mld pp4x query-interval

25.39 ipv6 mld slot query-interval

25.40 ipv6 mld unregistered ip4-mc

25.41 ipv6 mld pp4x query-response-interval

25.42 ipv6 mld slot query-response-interval

25.43 ipv6 mld pp4x last-member-query-interval

25.44 ipv6 mld slot last-member-query-interval

25.45 ipv6 mld pp4x robustness

25.46 ipv6 mld slot <ID> robustness

25.47 ipv6 mld snooping mrouter add

25.48 ipv6 mld snooping mrouter del

25.49 ipv6 mld snooping mrouter learning

25.50 ipv6 mld snooping querier enable

25.51 ipv6 mld snooping querier fast-leave

25.52 ipv6 mld version

25.53 ipv6 mld proxy report enable

25.54 ipv6 mld proxy report pp4x enable

25.55 ipv6 mld proxy report slot enable

25.56 ipv6 mld proxy report range

25.57 ipv6 mld proxy report pp4x range

25.58 ipv6 mld proxy report slot range

25.59 show ipv6 mld snooping groups vlan

25.60 show ipv6 mld snooping vlan config

		25.61 show ipv6 mld snooping vlan hosts 25.62 show ipv6 mld snooping vlan mrouter 25.63 show ipv6 mld proxy report 25.64 show slot <SLOT> ipv6 mld snooping groups 25.65 show slot <SLOT> ipv6 mld snooping vlan config 25.66 show slot <SLOT>ipv6 mld proxy report 38.9 trusted server 39 Configuring DHCP IPv6(PROFILE DHCPv6_RA) Relay agent profile: Added DHCPv6_RA profile and all commands to edit it. 40.9 show interface gpon-port <GPON-PORT> pppoe sessions 45.13 mld immediate-leave 45.14 mld multicast dynamic-entry 45.15 mld query interval 45.16 mld query last-member 45.17 mld query response 45.18 mld mode 45.19 mld querier 45.20 mld robustness 45.21 mld version 51.4 show ip route 52. DHCP Relay: DHCP Relaying feature configuration commands added Removed sections: 11.10 save
Version 1.1	23.12.20 15	Revisions: 19.14 servise custom
Version 1.0	04.12.20 15	First issue
Firmware version	3.30.0
